

MOTERT BASIC AWARENESS TRAINING

This TERT Basic Awareness training course is designed to train telecommunicators with at least 2 years of experience to assist another temporary, alternate, or permanent PSAP when assistance is needed. Topics include: How TERT activation occurs, The mental and physical preparation for disaster deployment, and the Telecommunicator's roles in a Disaster Environment. This 4 hour class is free of charge and meets state required certification. Class size is limited so sign up today!
